SPIRITUAL ECOLOGY CONFERENCE AT ST. ETHELBURGA'S CENTRE London, England

JUNE 29, 2024

How can we come together to once again love the Earth? In a time of unraveling, how can spiritual ecology help us step into new ways of being that place care for the living world at the heart? What does a spiritual response to the climate crisis look like in practice?

Held at St. Ethelburga's Centre for Reconciliation and Peace in London, this conference will draw on diverse faith, spiritual, and non-religious perspectives, and give tools for navigating the challenges of our time; inspiration for forging communities that can withstand difference; and modes of being and seeing that restore deep kinship with creation. Join for a day of talks, workshops, and panel discussions that bring together diverse voices radically reimagining how to be in relationship with the Earth at this time.

Keynote speakers include René August, Emmanuel Vaughan-Lee, Dekila Chungyalpa, and Clare Martin.

[Engage](#) | [Print](#) | [Podcast](#) | [Store](#) | [Stories](#)

We host a variety of online and in-person programs and events featuring Emergence staff and contributors, aimed at providing a space where our wider community can engage through the power of story. Through workshops, retreats, immersive leadership courses, nature connection practices, exhibitions, film screenings, and live pop-up events, we create interactive spaces for exploring the connections between ecology, culture, and spirituality.

Words of connection to the event

- living world
- spiritual response
- Common ground
- Time presence
- Grounding
- Practice
- Connectivity to earth
- Bare foot
- Deep breaths
- Peace
- Wet Grass
- Connection leads to change
- Meditation
- Personal connection, collaborative practice
- Health benefits
- Climate benefits
- gardening

API to work with : Sunset and Sunrise Times API

Why: sunsets and sunrises makes me feel present at the moment, it is an event by itself. Makes me remember how small we are when compared to the universe. I never get tired of watching a beautiful sunset. I feel more connected with nature will stopping to watch the sunset. Reminds me that tomorrow there will be a new day. Sunrise brings me peace. The change of light.

Ways to implement IPO

- 1- counting days until the event (sunset remaining until the date) - website change to dark mode after the sunset everyday.
- 2- during the sunset hours and the sunrise hours, typography breaths, as a reminder of how alive the earth is.
- 3- during sunset and sunrise hours at the event place, the website goes out, you can only watch the sunset/sunrise - be present
- 4- prompt of the moment. Every sunrise and sunset, until the day of the event, the website will popup with a prompt of an exercise to practice grounding. - preparing for the event
- 5- the sunlight changes in the website according to where the sun is at the day. Creating shadow in the letters for example.
